

Sharp Shooter Rules

- To qualify it costs \$2.00 shot.
- Once you pay you get to pull out a colored coin to decide which stake you will be shooting from. You have to pick a colored coin each time you pay to shoot.
- If you pay for three shots and hit the dot on the first shot you will not get your money back.
- In order to qualify your arrow must be touching the orange dot.
- No magnification of any kind may be used.
- Half of the money raised will go back to the winner and the other half will go to LEAK a nonprofit group supporting our wounded veterans thru providing unique hunting opportunities.

Shootout

Once qualified the shootout is on Saturday at 5:00pm. We will start with the juniors and then go to the adults. The dot in the finals is about double the size of the qualifier dot which hopefully will make it a little easier. We keep going until we are down to one winner in each category.
